

What do we do ...

Specialising in security and fire safety systems in South Wales we offer a **sympathetic service to suit your individual requirements**.

With over 20 years of experience in the industry we have proven the value of **listening to our customers** before we start making suggestions.

Whether your requirements are to protect your home or business, for safety or security, or for any other purpose, **we have a suitable solution** for you.

What can we do for you?

Residential: We offer a consultation **free of charge** to evaluate your security requirements and recommend any changes that are worthwhile.. All quotations are on a no-obligation basis and you will be left with full details to discuss in peace after we have left..

Commercial: With our experience of commercial premises we can guide you through the pitfalls surrounding security and fire safety, including **Fire Risk Assessment and the legislative requirements**.

Trade: If you are involved in **electrical installation works** we are able to offer good discounts, a full 'design, supply & commission' package along with project supervision, general assistance and current certification.

Peace of mind starts here ...

Should you be involved with your own home, apartment buildings, B&Bs, hostels, hotels, student accommodation, education, health, shops, retail units, industrial units, manufacturing plants, transport hubs, public buildings or Oil & Gas applications then your requirements can vary hugely and we will be happy to offer useful advice.

We have experience in all these applications and many many more, including specialist custom modifications, unusual specifications, harsh climatic conditions and global applications. Browse-on for lots of useful advice and informative links, **but remember the old saying: 'Keep It Simple'**.

Contact us for further details, a site survey or a no-obligation quotation.
